

THE FASTENER EXPERTS

CUSTOM SOLUTIONS

 **InfinityTM
Fasteners**
A Keller & Kalmbach Company

**- THERE ARE NO PROBLEMS
ONLY SOLUTIONS -**

Our goal is to help our customers run their business effortlessly. Custom Solutions was developed to build programs specific to a company's individual needs; improving inventory management, increasing supply chain efficiency and reducing costs.

-Infinity Fasteners Team

INVENTORY SOLUTIONS

VMI (Vendor Managed Inventory) Creating Customized Solutions For You

The Basics

- Identify Items for your VMI program
- Provide the best sourcing available
- Establish an approval process to automate orders
- Replenish orders based on your guidelines & usage
- QA items prior to delivery
- Provide accurate & on-time delivery

CMi (Customer Managed Inventory) Want Your Inventory Management In House?

We will help find time and cost saving solutions to improve inventory efficiencies. Organizing inventory programs you can manage in-house.

ASSEMBLIES Reduce Costs & Line Items

Procuring all individual parts intended for assembly, providing you with one complete part.

KITTING Need Kits?

Order a variety of parts in one package with one part number. Kits will include part number & list of items included. You can also opt to include a barcode, instructions, material certs. & more.

SPECIALS

- WE WILL EXCEED YOUR
EXPECTATIONS -

Infinity Fasteners service has been quite impressive. They have implemented two bin systems at both of our plants to streamline the vendor managed system they administrated. They are an organization that you can trust to effectively and efficiently handle the details of your fastener spend.

ORDER SOLUTIONS

CUSTOM FORMS

Customize order & shipping paper work to mirror your own forms. Eliminate the hassle of searching for important information on the following paperwork.

- Acknowledgments
- Invoices
- Packing Lists

NO MINIMUM ORDER REQUIREMENTS

We require no minimum quantity or price on orders. Order what you need not what you have to.

STANDARD

EDI

Streamline & automate the order process. EDI ensures fast & secure handling of your orders. Reduce costs & lower the error rate of manual data exchange.

BLANKET ORDERS

Set multiple ship dates for the same price of materials.

ITEM NUMBERS

Have your item numbers cross referenced with our item numbers. When you place an order with your part number, we can ensure you will receive the correct item.

PACKING SOLUTIONS

LABELS & PACKAGING

Request custom labels to include all the information needed in your receiving department. You can also request specific packing instructions for special projects.

COLOR CODED REFERENCE GUIDE

All cartons are numbered & color coded, we then cross reference each item on the packing list with the coordinating number and color.

PREMIUM PACKAGING

We take great care with our packaging; we want to make sure your order will arrive in premium condition.

- Durable packaging with a bursting test of 350 lbs. per sq. inch.
- Our 3/4 keg boxes are capable of holding 120 lbs but we never pack more than 60 lbs of product.
- Each pallet is banded & wrapped.

LTL SHIPMENT PHOTOS

For every LTL shipment, photos are sent documenting the condition your order left our warehouse.

STANDARD

- DOING WHATEVER IT TAKES TO GET THE JOB DONE -

I highly recommend Infinity Fasteners, Inc. After 16 + years of working with them, we are all quite impressed with the service & quality we continue to receive. The hardware we purchase are for projects & must be packaged & marked per each bill of material item. Infinity Fasteners makes sure everything is properly marked & packaged. These are the little things, but they make my job easier.
